

## BOYS AS COWBOYS.

Cleveland, Ohio, Youngsters Give Police a Lively Time.

Chicago, March 24.—Three boys from Cleveland, O., bound for the west to become "broncho busters," shot at a policeman and created a small sized riot in the neighborhood of Seventy-fifth street and Dobson avenue yesterday.

The boys were walking on the Pennsylvania railroad right of way and were accosted by Special Policeman Dennis Moriarty. He found revolvers stuck in their boots and they were well equipped with dime novels and smoking tobacco.

While he was searching the clothing of one of the boys, the lad cried out: "Here, cut that out or I'll take a shot at you!"

The boy, who later gave his name as Louis Magy, 16 years old, 1896 West Twenty-second street, Cleveland, jerked away from the policeman and ran down an embankment. Moriarty gave chase when the boy turned and fired four times at his pursuer. Moriarty shot at the boy six times.

The shots aroused the neighborhood and within a minute a dozen men had entered the race.

Magy finally gained cover in a barn, where he kept his pursuers at bay for some time. Finally the boy made a dash for liberty and was caught by Lieutenant McCann, who took him to the Grand Crossing station. His companions were not arrested.

## HE IS LAWLESS CITIZEN.

Illinois Association Report Thus on College Man.

Chicago, March 24.—A report to be submitted to the Oberlin, Ohio, Association of Illinois at its annual meeting in Chicago at an early date charges the college bred man with being the most lawless element of modern society. The report has been compiled by an Oberlin alumni committee of Chicagoans and the data have been collected from all over the United States.

The general indictment is twofold. It accuses college men of being knowing breakers of the law and of being indifferent when they see the law being broken by others. Among the specific findings of the committee are the following:

"It was found that many college men elected to office in city, state and national, after taking an oath to enforce the law of the land are violating their oaths by not enforcing certain laws on our statute books.

"It was found that many college and university men in Chicago belong to clubs where the members have kept the bar of these clubs open on Sunday contrary to the criminal code of Illinois.

"It was found that in many instances college men are the men expected to prepare immunity baths for our delinquent and lawless citizens.

"It was found that many college men are afraid to protest against lawlessness for fear such protest may injure their business or their prospects of being elected to some office."

## TONS OF OLD ROPE.

It Is Made Into Paper for Flour and Cement Sacks.

New York, March 24.—What becomes of the world's old rope? The question is answered on one of the back pages of the annual report of a big New York paper manufacturing company.

"There is certain of our raw material," says the report, "for which we pay more per ton than the price of finished steel rails. This is nothing more or less than old manila rope.

"Old rope comes to us from all parts of the world—the greatest quantity through Liverpool and London. After being ground up and cooked, it is made into paper for flour and cement sacks and into insulating paper and sand paper. Thirty thousand tons of old rope was turned into paper in this country last year."

## HE CUT COMMISSIONS.

J. Willis Horton, Chicago Broker, Suspended and Fined.

Chicago, March 24.—J. Willis Horton, broker, charged with "cutting" commissions on orders executed by him in stock of Street's Western Cable Car line, has been suspended for three months from the Chicago stock ex-

## A Handy Home-Made Remedy For Coughs and Colds

A cold or cough often comes on quickly. This simple remedy, if kept handy, will nip it in the bud. Although inexpensive, there is nothing better at any price. It usually stops a deep-seated cough, in twenty-four hours, and is splendid for hoarseness, whooping cough, chest pains, bronchitis, etc.

Granulated Sugar Syrup, 1 1/2 oz. Pinex, 2 1/2 oz. Make a plain syrup by mixing one pint Granulated Sugar and 1/2 pint of warm water, stir for 2 minutes. Put 2 1/2 ounces Pinex in a pint bottle and fill up with the Sugar Syrup. Take a teaspoonful every one, two or three hours.

None of the weaker pine preparations will work in this recipe. Use the real Pinex itself, which is the most valuable concentrated compound of Norway White Pine Extract, and is rich in all the healing elements of the pine. All druggists have it or can easily get it on request.

This recipe makes a full pint of unequalled cough syrup—enough to last a family a long time—for only 44 cents. It is equally good for children and adults, and has a pleasing taste.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

change and lined \$500. This was the decision of the governing committee and Mr. Horton will be officially notified today when the finding will be publicly announced by President F. D. Countess from the rostrum of the exchange.

It was alleged that Horton handled the bulk of the orders of a pool which was operating in the stock.

The suspension of Mr. Horton is the first punishment of the kind for a similar offense administered in the last twenty years to a member of the stock exchange. By a queer coincidence the last broker to be suspended from the exchange was charged also with cutting commissions on orders in the same stock.

## SWEPT CLEAN BY FIRE.

Nine Farms Destroyed by Fire Near Abilene—Loss \$50,000.

Abilene, Kan., March 24.—A prairie fire that started yesterday afternoon near the railroad tracks, four miles west of Abilene, and burned north, was checked by farmers early today, but not till nine farms had been swept clean and much small stock killed.

The loss will reach \$50,000. The farmers in the burned area are left without tools or seed for spring work and with orchards and gardens destroyed.

## WAGNER WANTS AUTO.

Thinks His Batting Average Last Year Better Than Cobb's.

Detroit, Mich., March 24.—Hans Wagner has put in a bid for the automobile offered by an automobile company to the champion batsman of the country. He intimates that he considers his .339 of last year better than Cobb's .377, on the ground that he had harder pitching to swat. Says Hans in his letter:

"Motor car for leading batsman has the medals and loving cups beaten a mile, and is a generous offer on your part. You cannot clearly decide the world's champion batsman, on account of the different pitching and sliding in the two leagues. Something should be done whereby the leading batsman of each league should be considered."

## AERONAUTIC TROPHIES.

They Will Occupy Place of Honor at Club Dinner Tonight.

New York, March 24.—Four aeronautic trophies are on public exhibition here for the first time. They will occupy a place of honor on the speakers' table at the annual dinner of the Aero Club of America tonight.

The trophies of the lot is the Gordon Bennett trophy for aeroplanes, which Glenn H. Curtiss won at Rheims last summer. Besides this are to be seen the balloon trophy of the Aero Club of America, the Scientific American trophy for aeroplanes and the Cortlandt Field Bishop cup of the Aero Club of New England.
